

U.S. National VEX Robotics Championship

Triangle Triumph

Champion Award
Finalist Award
Engineer Award
Honor Award

Champion Award - Presented to the winning alliance (2 teams) of the CREATE Junior tournament.

Finalist Award - Presented to the runner-up alliance (2 teams) of the CREATE Junior tournament.

Engineer Award - The “Engineer” award will be given to a team that has designed and built a robot that balances creative and innovative design, function and attention to detail. This team will have built a robot that is well constructed and has attention to safety in both design and construction. The winner of this award will have engineered a quality robot at all levels.

Honor Award - This is the highest award presented by the CREATE Foundation. The recipient of this award is a team that is a model of integrity and honesty. They are determined, hardworking and honor the competition by competing to the best of their ability and honor the engineering process by their collaborative and creative work. This team excels in their on field performance, interview with the judges and their interactions with each other, other teams and tournament officials.. They exhibit a desire to learn, share information and help others. This team not only designs quality into their robot but into their team as well.
